

# Save Money and Increase Efficiencies with AP Automation

Easy Access creates a seamless AP automation experience tailored to your team's needs. Powered by our unique algorithms and supplemented by integrations with 30+ ERP systems your invoices will be received, approved, and posted automatically. Resulting in time and cost savings. These benefits will result directly in driving financial growth for your business.

## 5 Ways Easy Access Ignites Business Growth

- **Never Lose Another Invoice** with a multi-criteria Search Invoice Page.
- **Touchless Multi-line Invoices** seamlessly pair each invoice line to the PO line.
- **Reduce Delays** with a tailored dashboard to quickly view who + where in the process each invoice sits.
- **Increase Speed** with Touchless Processing and Rapid Corrections to triple the processing rate per employee.
- **Touchless Pairing and Matching** within your existing ERP.

*"We have achieved a Touchless processing ratio of over 65% on invoices some of which have over 50 lines each. The time and cost savings using the Easy Access solution have been enormous."*
